Medical Tourism

what about

Medical tourism, still little known in some countries (for example in Italy) is growing exponentially. In brief, it is the movement of patients from one state to another to face medical treatment. The reasons for a trip of this type are the search for better treatments at a cheaper rate, or the search for treatments that are not provided in your state of residence.

They can be preventive treatments such as check-ups and Second Opinion in the clinic, prevention or rehabilitation in specialized Thermal Centers, trips in search of a better image – cosmetic surgery – , or even purifying and detoxifying paths for those who sustain difficult work rhythms.

ABOUT US

SINCE 2016

EUROPEAN MEDICAL TOURISM

from 20 >> to >> 150+ Buyers

World Fine Selections srl and Taste for you Service srl, are the companies that have been organizing the international meeting EMT European Medical Tourism since 2016.

At our first meeting did attend 20 Buyers and 20 Sellers. In the edition of 2019 did attend 150+ Buyers, 20+ Speakers and 100 Sellers.

Living in close contact with operators for many months, we have recognized the need to create an environment in which information between supply and demand flows in an instant, simple and transparent way.

Our daily relationship with partners and foreign correspondents allows us to maintain an International network and a constantly updated vision on market trends, current trends and news in the world.

In August 2020 we did establish the Italian Association for Medical Tourism and we decided to set a partnership for EMT 2021. We aim to open the event to international partner & Associations for a mutual growing in the field of Medical Tourism.

Fam Trip

or EDUCATIONAL

FAM Trip stands for “familiarization trip” and it is a trip exclusively for Facilitators (and sometimes their guests!) that are provided by suppliers or travel operators. These trips are provided as a way for Facilitators to gain an understanding of the benefits of different trips that they can sell to their patients.

When you’ve seen a Hospital or a thermal centre for yourself, you can better help your patient understand what to expect. The more first-hand experience you have, the better you will be able to suggest the perfect solution for your patients based on their wants and needs.
